

# Rewards Mall

## Quick Start Guide

### What will you get with your points?

Wellness is fun, but it's even more fun when you get rewarded for it! When you're ready to cash in your points head over to your profile and select Redeem Rewards.\* Not sure how much you have? Check out your Rewards Statement first. Once you're ready to redeem, you can:

- ✔ Be choosy—Check out your options and choose from popular eGift Cards or custom items from your employer.
- ✔ Cash in—Redeem your points for immediate use via email. Custom items may take a bit longer.
- ✔ Keep it going—Complete more activities and come back to shop until you reach the maximum spend set by your employer.

Wellness is a journey. Getting rewarded for it makes the journey more fun!
